

UniFirst

The choice for cleaning solution dispensing programs

 Save an average of 90% or more on cleaning solutions.

Save 90% or more on commercial cleaning

Is your business using ready-to-use facility cleaning solutions, cleaning solution concentrates, or a “top-off” solution dispensing service?

If so, then it's time to switch to UniFirst's Cleaning Solution Dispensing Service for BIG savings on the most commonly used cleaning supplies for your facility. Compared to purchasing ready-to-use cleaning solutions, you could be saving 90% or more!

Precise concentrate dilution for cost savings

The secret to dramatic savings in cleaning products is the proper use of concentrates. When you buy ready-to-use cleaning supplies, you pay for 95% water and elaborate packaging. And, when you “free pour” concentrates to mix your own cleaning solutions, you use much more than needed. With the UniFirst dilution control system, you get perfectly diluted solutions at the touch of a button with no waste. Unlike competitive programs, each of our patented concentrate refills comes with a fresh, built-in metering tip to ensure precise dilutions.

Pay only for what you use

UniFirst's dilution control system is not a “top-off” service. You get reliable, need-based deliveries of concentrated refill cartridges only when you need them, and you only pay for what you receive.

Designed for simplicity and safety

Our system is safe and easy to operate. With a simple water hookup and our installation help, you'll be ready to mix perfectly diluted cleaning solutions. Plus, colour and number coding of concentrated refill cartridges makes selecting the right cleaning solution for each application a breeze. Sealed refills and a closed delivery system reduces risks of accidental spills. English/Spanish/French product labels and a wall-mounted information guide make training staff a snap.

Easy-to-use, durable system

Wall-Mount Dispenser

Accurately dilute and dispense two high-performance concentrates with the push of a button. Easily connect two units together to create a four-product dispenser.

99SR

1. Training guide/ information wall chart
2. Easily fill spray bottles, mop buckets, auto scrubbers, etc.
3. Correct dilution with the touch of a button prevents wasteful “glug glug” pouring
4. Locking cabinet
5. Concentrate mixes automatically with water in dispenser
6. Colour- and number-coded containers for simplified training
7. Coordinated OSHA-compliant spray bottles
8. Fresh metering tip in every refill prevents system clogging
9. Stop wasting 50% of your concentrated cleaning solutions

Cleaning solutions

Or call 800.225.3364.

Sink dilution station

Automatically dilutes and dispenses super-concentrated suds and sanitizer cleaning products into three-basin sinks from a compact, durable metal-housing design, with greater reliability than the traditional pour method.

Three-Basin Sink Dispenser

99TQ

Sanitizer

99TT 3.7 L, yields 1,942 L

Test Strips

Measures the concentration of quaternary sanitizers.

99TW Test strip kit; 15 ft./roll

Power Suds

99TR 3.7 L, yields 973 L

Heavy-duty degreaser system

Remove grease and oil from a variety of surfaces with the Fury Degreaser, a non-corrosive heavy-duty degreaser. Perfect for use with automatic scrubbers. System features one-button dilution control and bag-in-box refill design for easy, economical use.

One-Button Degreaser Dilution Control System

99TK

Fury Degreaser

99TL 18.9 L bag-in-box, yields 322 L
99TP 208 L drum, yields 3,539 L (drop ship only)
99UE 1,040.9 L tote, yields 17,695 L

Rapid Fill Dispenser

99TV (for 208 L drum)

Drain maintainer

A multi-purpose biological digester/odour counteractant. Its blend of four different bacillus strains release enzymes to break down organic debris. Use as a drain maintainer and grease-trap additive.

99TU 18.9 L

One Shot single-dose cleaning solutions

Enjoy the benefits of perfectly diluted commercial cleaning products in a convenient, ready-to-use concept for small-business needs.

- 3** Attach sprayer to bottle and shake gently.
- 2** Insert cartridge into bottle neck.
- 1** Fill with water to fill-line.
